Summary

About

Creative and compassionate private tutor having more than ten years of experience with immense subject knowledge of accountancy and economics. Strong interpersonal skills and understanding of learning strategies with excellent verbal and written communication skills. proficiency in online tutoring and digital learning platforms. A professional skilled at evaluating student abilities with academic goals to tailor lesson plans and programs accordingly. Flair for establishing rapport with students to engender trust and promote physical, social, and emotional growth. I believe my enthusiasm for supporting all students, extensive education and specialized experience would make me an asset to this exciting state history education initiative.

How I Work with Students:

I am well expert to teach accountancy and economics as i have immense knowledge and experience about how to teach students in an efficient and technically manner. Most important part of my teaching is to provide student's self-written content. I also arrange test for them after wrapping each topic. I also provide set of questions to the students to prepare for examination, unit test, mock test etc. I always ready to work with them by clearing their doubts so that they may get fully satisfied. Overall, i always ready to accept all challenges which is put up by students as i am so passionate about my teaching.
