- You have five minutes. Children should be working towards scoring 100%.
- Watch out for the changes to + /÷ / - / x
- This test will be repeated five times, where mistakes are made it will be an indication that further times tables work and attention to detail is necessary.

⑤ £1.22 should be £1.10 (mistake in multiplying)

⑥ 108 should be 891 (find the product means multiply not add)

⑦ 1050mm should be 870mm (The question asks to take away 20cm not 20mm. Question read poorly)

⑪ 290m should be 2090m (there are 1000 metres in a km not 100)

⑫ 58 should be 400 (find the product means multiply not add)
