Compound Word Puzzle

In Verbal Reasoning compound words do not have to be traditional e.g. **black** and **board** - **blackboard**, but can simply be two parts of a word that have an unrelated meaning by themselves e.g. **or** and **bit** – **orbit**.

Often you will have to alter pronunciation to solve the puzzle e.g. **pop** and **pies** – **poppies** or **do** and **me** – **dome**.

Sometimes you will find yourself going wrong and will be left with two or more words that do not match up. There is a solution to the puzzle, just go back and adjust by using your logic skills. Some of these puzzles are difficult and will take time and high levels of concentration to solve.

Find ten compound words from these parts of words. (Use each part only once.) Write out the words you have found underneath. Learn meanings and spellings if you don't know them – this is a learning exercise, not a test.
